## PROJECTS

### Eye Blink Sensor

- Developed a real-time eye blink detection system using IR sensors and microcontrollers for assistive technology applications.

### Automatic Plant Watering System

- Built an automated irrigation system using soil moisture sensors and Arduino to monitor and maintain optimal soil hydration.
- Improved efficiency and sustainability in small-scale agricultural setups.

### AI-Powered Smart Waste Identification System

- Automated the waste management process, improving sorting accuracy and efficiency.
- Achieved 85% classification accuracy in the waste identification model.

### Finance Tracker Web App | Personal Project

- Developed a web app using HTML, CSS, JS to track income, expenses, and monthly summaries.
- Implemented CSV export, responsive UI, and light/dark mode, showcasing front-end and DOM skills.

## INTERNSHIPS

### Web Development Intern — InternPe (Oct 2024 – Nov 2024)

- Gained hands-on experience in **web development** by working on live projects.
- Collaborated with mentors to build and enhance **front-end and back-end web solutions**.
- Strengthened knowledge of **HTML, CSS, JavaScript, and frameworks** to deliver user-friendly web pages.
- Applied problem-solving and debugging skills to improve project efficiency.
- Developed professional work ethics, time management, and team collaboration skills.

## ACHIEVEMENTS

- AWS Cloud Practitioner Essentials – Aug 2025
- Tata Group GenAI Simulation – 2025
